Gorilla Traps®

The finest pest control
100% made in Germany

Practical and robust

Made of robust, high-quality steel and precise springs.

Effective

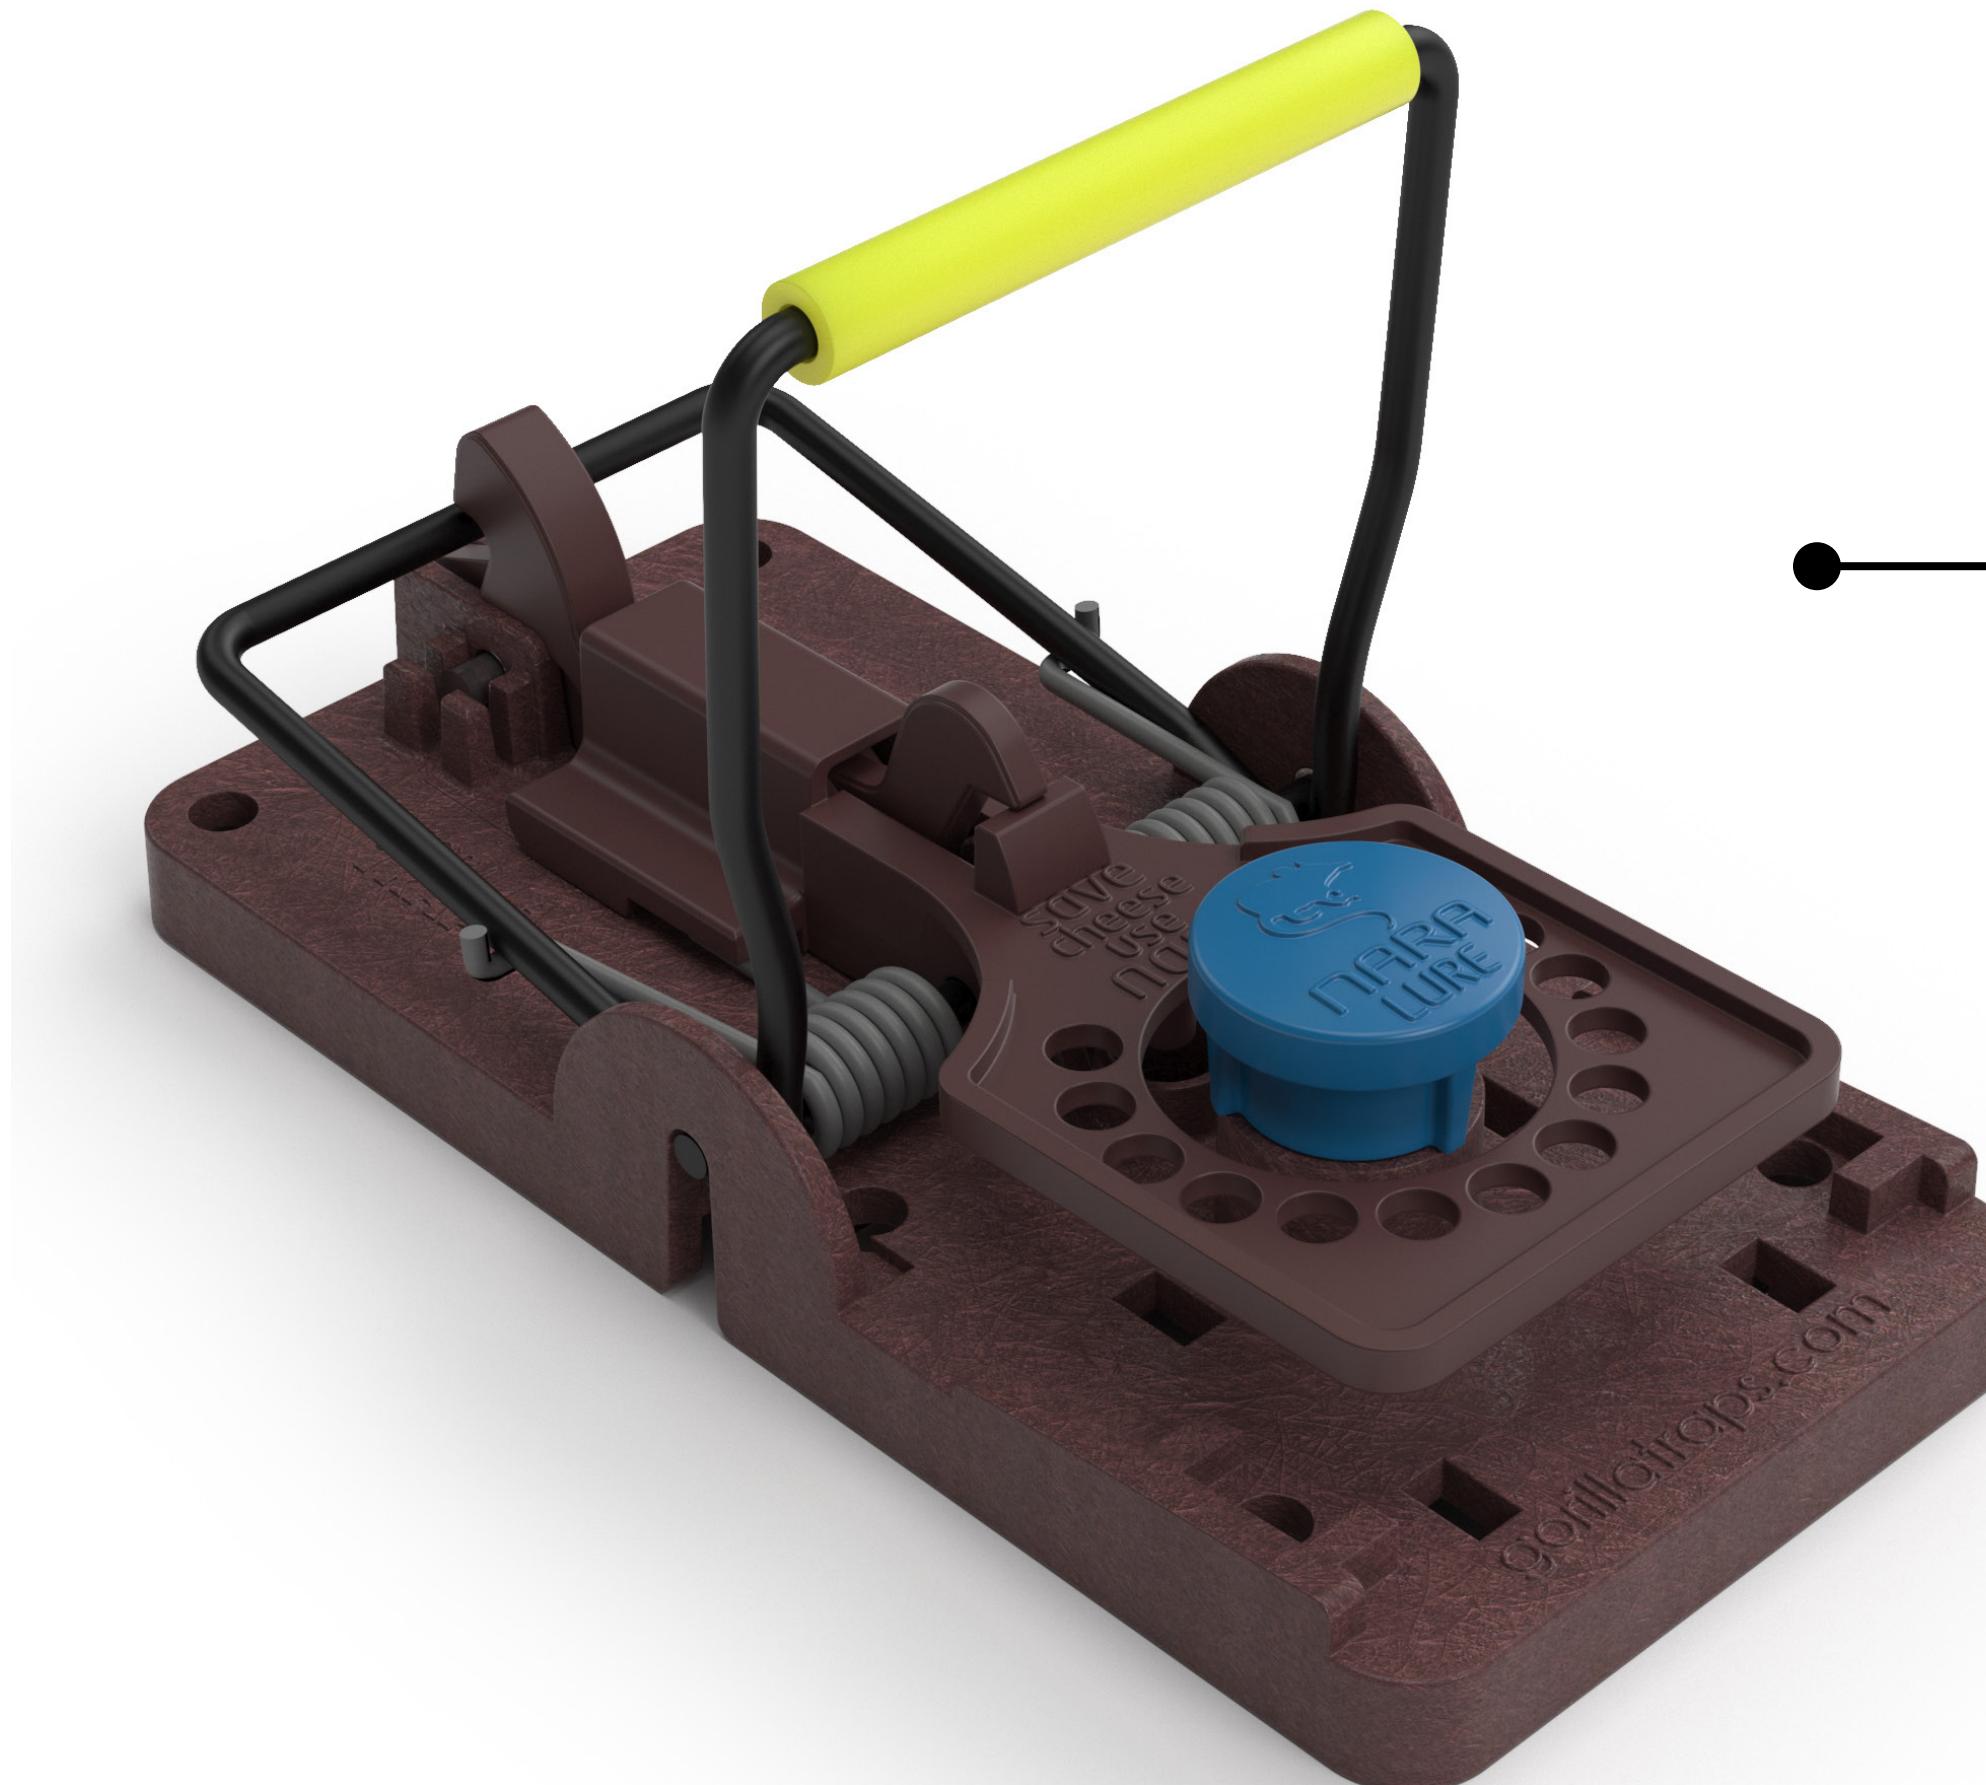

High catch rate. The lightning-fast strike of the handle with enormous force spares the rodents suffering as much as possible.

Our traps – AIB-Compliant, safe and effective

AIB confirms that Gorilla Traps®, as a standalone version, or in combination with eMitter® digital trap control system and the NARA® products are in line with the requirements of the AIB International Consolidated Standards.

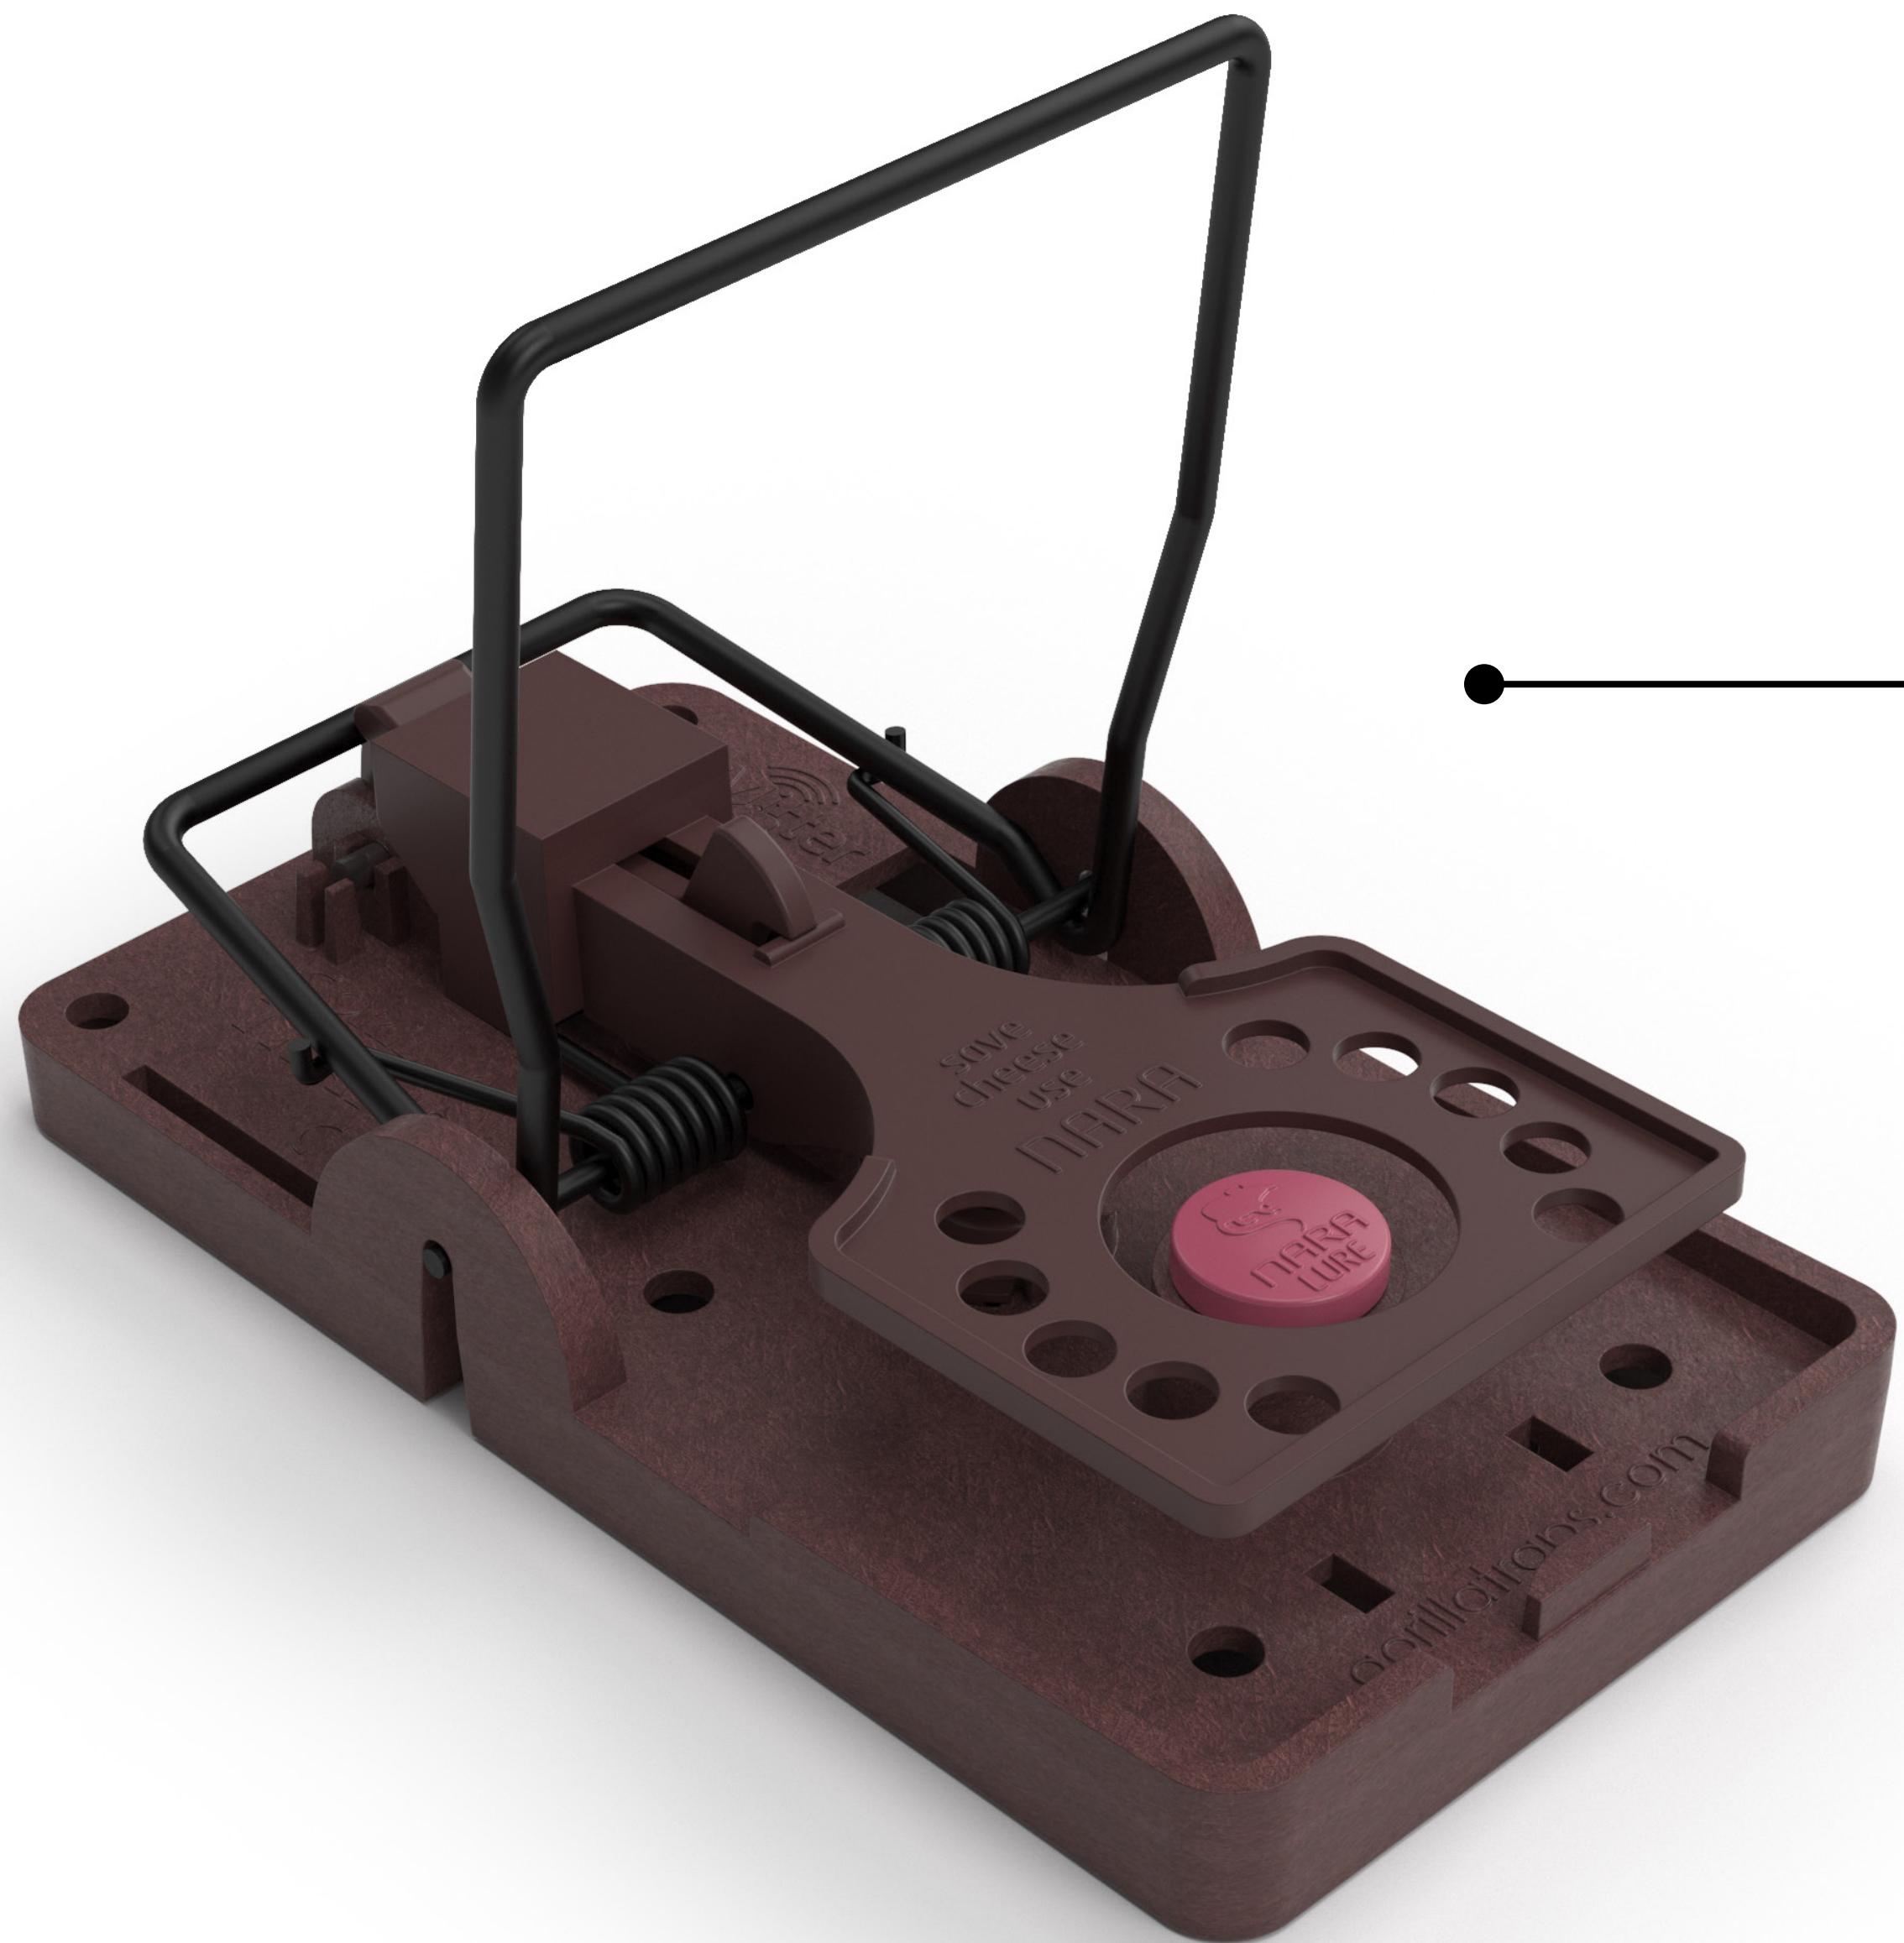

Simply unbeatable

The big boy: Gorilla Traps® mouse

The Gorilla Trap® formice is the most humane mousetrap on the market. It is the first trap that has been approved according to §18 of the German Animal Protection Act.

The bigger boy: Gorilla Traps® Rat

In addition to the usual Gorilla Traps® quality, the big brother also has some more features on board. On the bottom the spring tension of the pressure plate can be adjusted, so that the trap only triggers on rats or even lighter animals.

The pressure plate also has passive sensor technology, which uses an eMitter® system to ensure that you can read the exact status of the trap and also detect when rodents are running over an unsprung trap.

The transparent trap

The transparent trap is most effective when used in combination with the normal Gorilla Traps®. Where the rats avoid the normal trap, the transparent trap closes because it is not perceived as such by the harmful rodents.

It is also recommended to support the application with NARA® spray. In this way, the rats no longer have a chance to perceive the traps through their smell. The animals try to avoid the normal traps as they are a visible barrier and then they take the path over the transparent traps.

In this way you can significantly increase your catch rate!

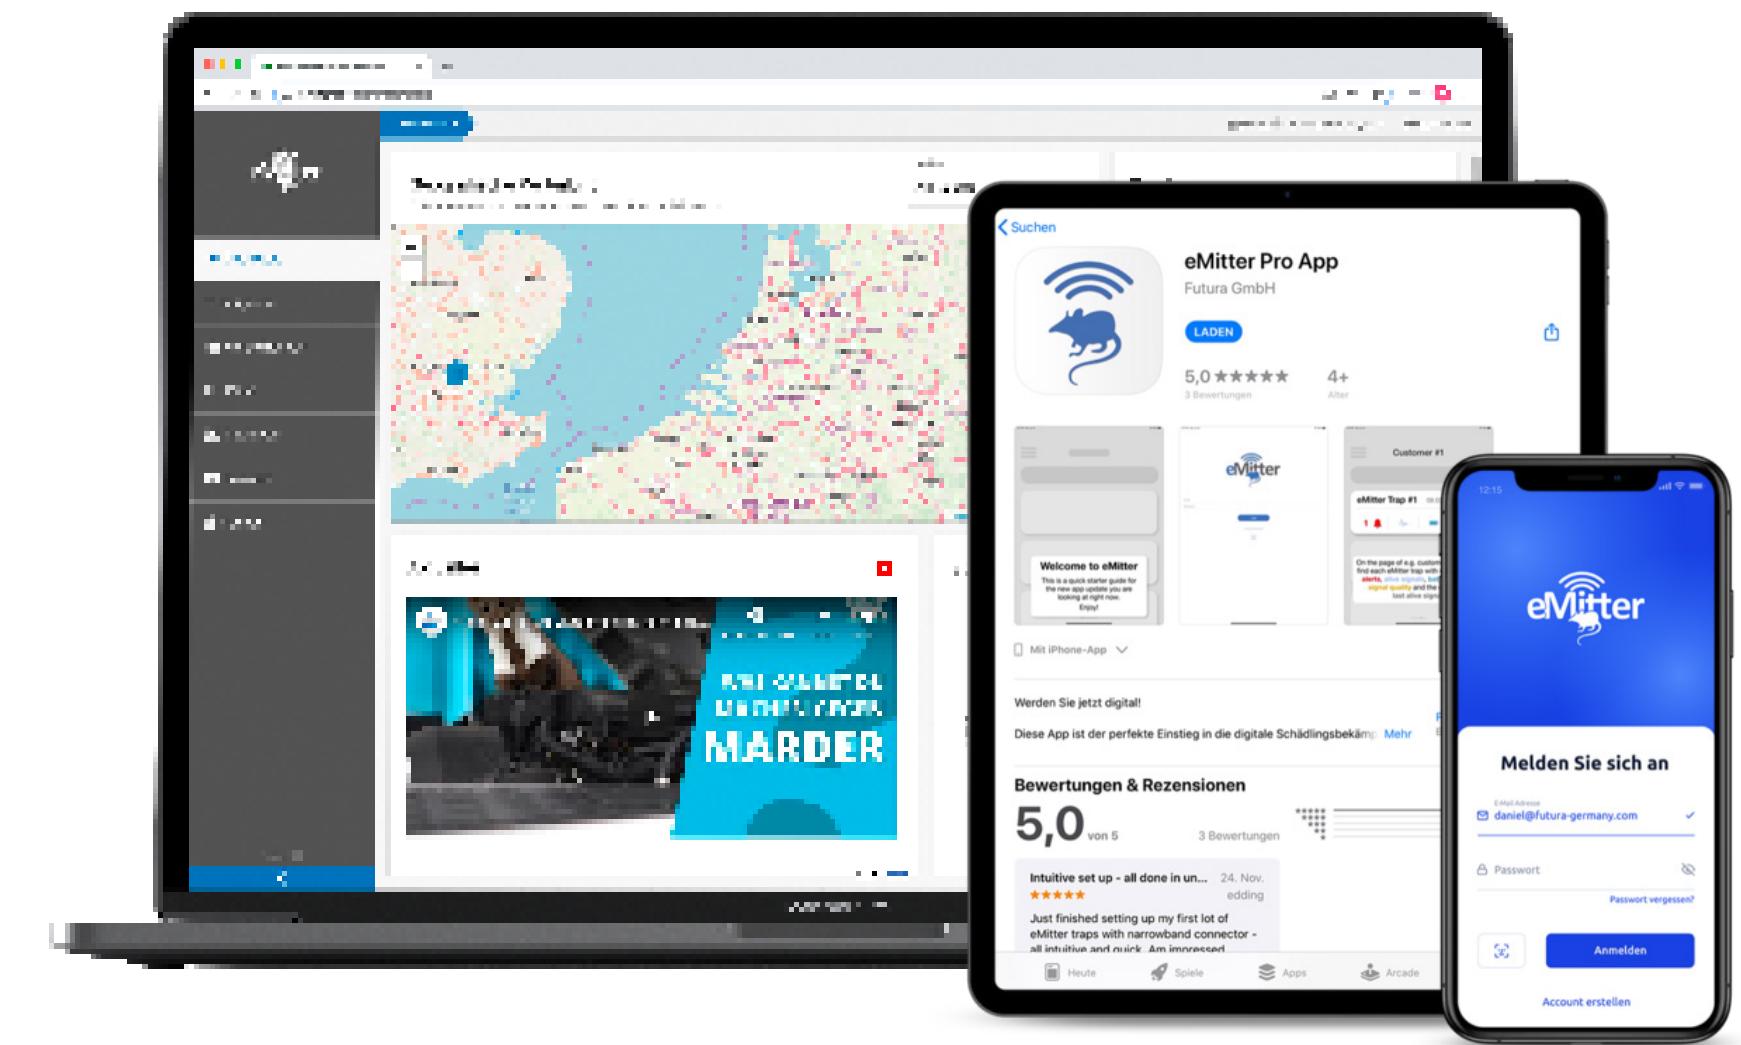

100% compatible with NARA® Stic

For effective surveillance, we have designed our NARA® Stic to fit perfectly into the Gorilla Traps® snap traps.

Digitizable with our eMitter® products

All Gorilla Traps® are the perfect complement to our eMitter® products. A perfect match of intelligent pest control.
