Frost Spray for insect and nest control

Green Hero Frost Spray is an insecticide-free insect spray which can be used against all pests such as wasps, bedbugs, mites, silverfish and many other storage pests. It is particularly suitable for use with nests (wasp nests, ant nests, etc.).

Mouse Stop Sealant

Whether martens in the attic, mice in the garage or rats in the basement: rodents, insects and other pests can penetrate through the smallest holes or cracks, cause major soiling, bring in diseases and destroy cables, pipes and seals.

Simple sealants are often not sufficient to effectively keep rodents away, as they can easily be destroyed by the rodents. The GreenHero Mouse-Stop efficiently, permanently, quickly and reliably prevents pests from entering buildings or pipes.
