# eMitter® TubeTrap

**Digital pest control**

100% made in Germany

# • More safety is impossible

**Latest and most secure connection via SIM card**

LTE-M with NB-IoT and Cat-M

**No false alerts**

Sensor-controlled catches, not triggered by vibrations or similar.

**No infrastructure required**

No routers, repeaters or gateways are required (as with insecure Wifi or LoRa)

**Worldwide connectivity**

Includes a worldwide flat rate and sends signals directly to our cloud or to you via API.

# All rodent species, indoors and outdoors

The Tubetrap catches mice and rats safely and humanely, indoors and outdoors. No false alarms caused by vibrations or collisions and the Tubetrap naturally distinguishes between "rodent caught" and "empty catch" by sensor control.

**Made in Germany**

Our software and hardware are developed and produced in Germany

**Long battery life**

Rechargeable batteries last up to 4 years

**Modern technology**

NB-IoT and Cat-M for signal transmission through solid walls
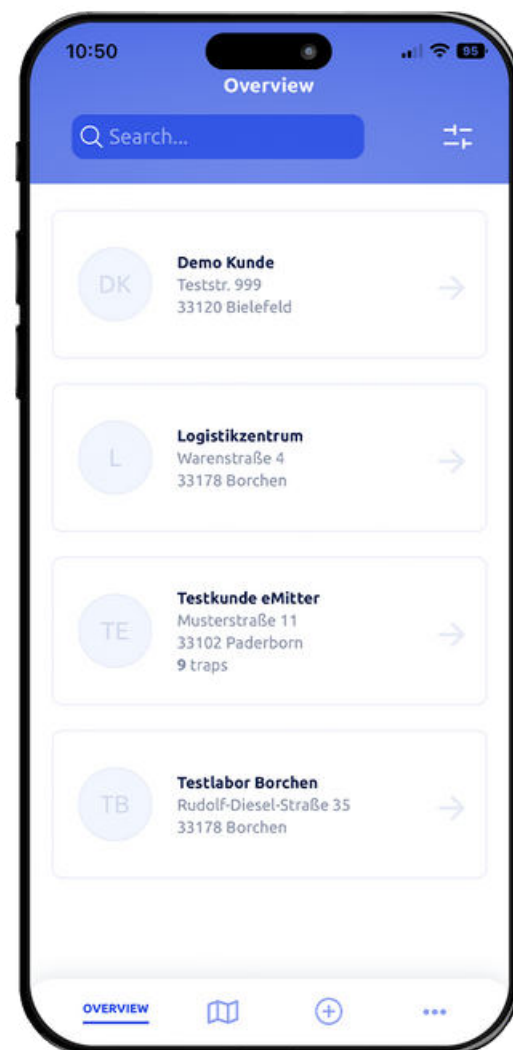

**Catch or no catch detection + motion detection**

# Change from motion detector to catch with timer and app control

✓ **Very high catchability thanks to barrier-free tunnel design.**

✓ **Monitoring or trapping with timer function. Adjustable via app or web.**

✓ **Weekend mode:**
Traps can be switched from "catching" to "monitoring".
The Tubetrap no longer catches mice, but records the movement and informs you about it.
e.g. from Friday 17:00 - Sunday 0:00 for animal welfare law compliant PCOs.
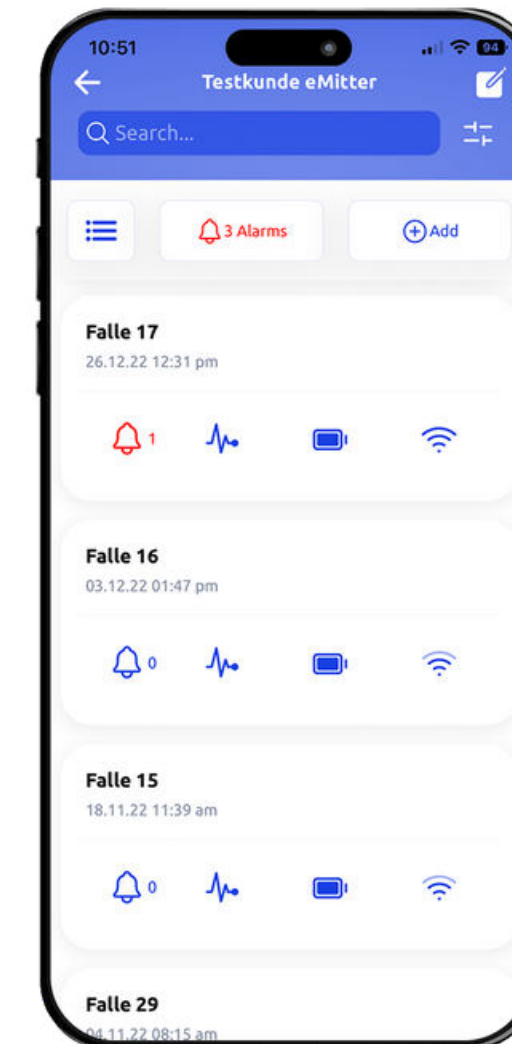

# eMitter® App

## Create and manage

Emails and push messages
to the Apple and Android
eMitter app are free as well as
our web login or API
interfaces directly to your or
other software systems.

## Overview

The statuses of all traps are
visible as a preview in the
app, but also as a clear tile
view and distinguish
between: Caught, Empty
Trap, Motion Alarm and
more.

## Control

Any number of
locations and users,
heatmap function,
email messages
and more.

## Live pictures

Store locations and
images of catches
online or via app.

# Motion Detector and Trap

✓ **Monitoring mode: when switched to monitoring, the Tubetrap counts rodent movement and transmits it e.g. via push notifications.**

✓ **In the middle of the Tubetrap is space for a Nara® Stic (allergen-free, long-lasting) for perfect monitoring.**

✓ **Set an individual "timer" so the trap catches Mon-Fri and only monitors Sat-Sun, for example.**

Nara® Stic

Motion detection

GB-FC0829 HBT

# Humane Effective Hygienic

- Safe and humane trapping for mice and rats

- Indoor and Outdoor (Outdoor box to be launched in August 2023)

- Hygienic wall for safe and hygienic cleaning

# The power of knowledge

### Traps automatically share their locations

Even on the largest production lines you stay on top of your pest control and thanks to our heatmap you can see directly where rodents are caught for IPM actions.
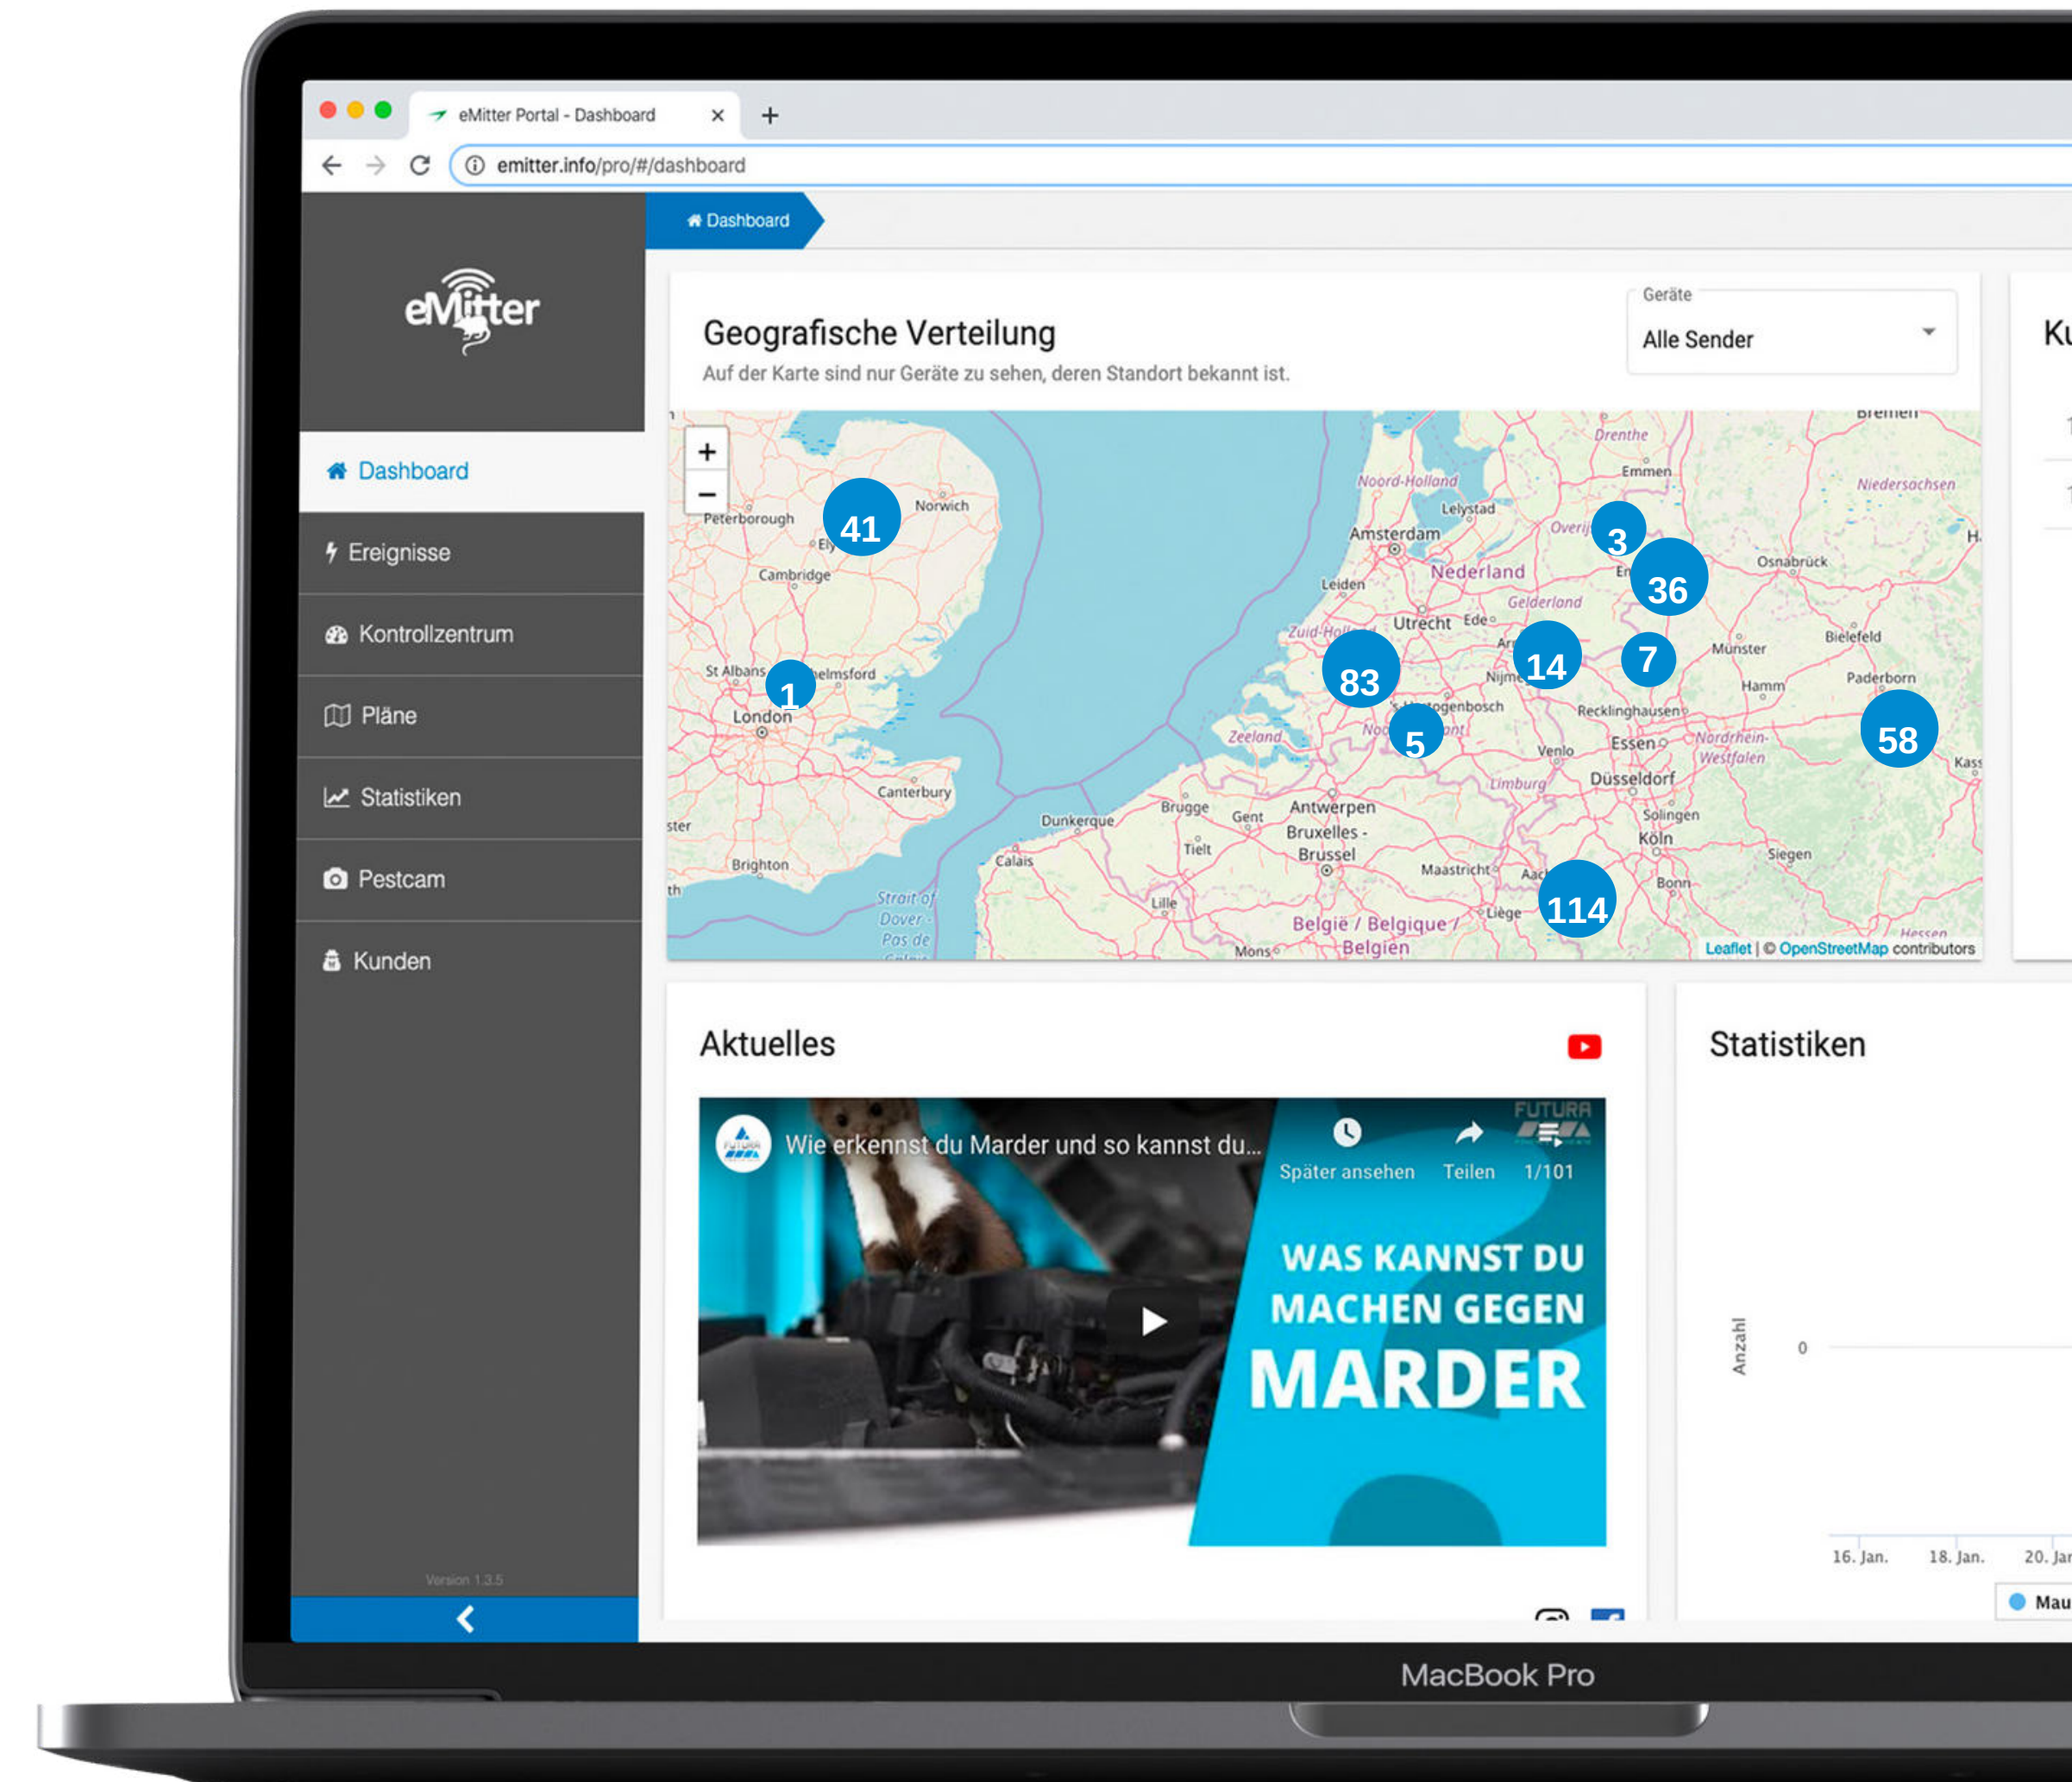

### API for data integration into leading software

For over 10 years we have worked with leading pest control documentation companies such as PestScan, Hygitec, Nector and others. Likewise, we can work directly with your systems and interface with your IT effortlessly.

### Everything at a glance

- Statistics and pictures of the catches
- Battery capacity in %, network coverage in %
- Easy management of thousands of traps
- User administration (customer, PCO etc.)

# Thousands of satisfied customers

## Our Customer

Nestlé

Coca Cola

IBM

Google

Pfizer

Wrigleys

Heineken

Mars Group

*and many more*

## Pest control

Biosix

Anticimex

Terminix

Vergo

Rattex

Pestpulse

Biotec Klute

Desinfecta AG

*and many more*

**100.000+**
SOLD WORLDWIDE

IN **OVER 50** COUNTRIES

**OVER 2000** PCO PARTNER

eMitter

# Innovation from Tradition

Since 2006 we have been manufacturing patented IoT solutions for professionals worldwide. Our Tubetrap is the only trap that combines motion detection and trapping in one, for rats and mice, indoors and outdoors.
